LearnTrack — sample test accounts

Create these by going through the app's **Sign up** screen (not SQL — only signup creates a full account + profile). Same password for everything to keep it simple: `test1234`

Greenwood Public School (greenwoodschool.com) — classes 9-A to 12-D

Role	Name	Email	Class
Teacher	Teacher One	teacher1@greenwoodschool.com	(teachers see all classes)
Student	Student One	student1@greenwoodschool.com	9-A
Student	Student Two	student2@greenwoodschool.com	9-A
Student	Student Three	student3@greenwoodschool.com	10-B

Riverside High School (riversidehigh.com) — classes 9-A to 12-D

Role	Name	Email	Class
Teacher	Teacher Two	teacher1@riversidehigh.com	(teachers see all classes)
Student	Student Four	student1@riversidehigh.com	11-C
Student	Student Five	student2@riversidehigh.com	11-C

Sunrise Academy (sunriseacademy.com) — classes 9-A to 12-D

Role	Name	Email	Class
Teacher	Teacher Three	teacher1@sunriseacademy.com	(teachers see all classes)
Student	Student Six	student1@sunriseacademy.com	12-D
Student	Student Seven	student2@sunriseacademy.com	12-D

Notes

- All passwords: test1234
- The first person to sign up with a new email domain becomes the school's founding teacher and names the school - so always create the teacher account before any students at that domain.
- Signup screen: Login page -> "Need an account? Sign up"

- If an email ever shows "already registered," it means this exact account already exists - either log in with it directly, or use a different email.
